

FOREVER BREATHE™

Application & Health & Safety Foreverbreathe Oxygen Cleaner Application

1. Make enough to use in a garden sprayer
- 2: Use one scoop of powder per 1L of warm water just cool enough to put your hand in.
- 3: Stir well for 2–3 minutes. The product will foam as the oxygen activates.
- 4: Apply the mixture using a garden sprayer in manageable areas approximately 2m x 2m. Thoroughly wet the area with the mixture and leave for 10 minutes. If the surface starts to dry out keep wet by reapplying the product. Avoid evaporation.
- 5: Scrub in the direction of the grain using a stiff deck broom, scrubbing brush or pressurised cleaning equipment. Keep wet during this process.
- 6: Hose off the area to reveal your clean timber
- 7: Once dry apply Foreverbreathe Oil

CAUTION: Wear rubber gloves

While Oxygen Cleaner is safe to use it will be harmful if swallowed and may cause mild skin irritation.

FIRST AID: IF ON SKIN - wash with water and soap, rinse thoroughly. IF IN EYES - flush with copious amounts of fresh water for 15 minutes. IF SWALLOWED - Do not induce vomiting. Rinse mouth with copious amounts of fresh water. Seek medical advice. Use foam, dry chemical. Use breathing apparatus. Rapid oxygen evolution may increase intensity of fire.

KEEP OUT OF REACH OF CHILDREN
